

April 3, 1975

basis of this course gets started immediately or gets started so that we could train the machinist so that when the Euclid Company has finished the bricks and the mortar Senator Dickinson, it is in your district that this course would be taught. I think that you should join hands with me and vote very definitely for this appropriation. It is in your district that the school is there. Sometimes, you simply amaze me.

PRESIDENT: Senator Cavanaugh.

SENATOR CAVANAUGH: Mr. President, members of the Legislature, I think about the only time that I disagree with the Governor is when Senator Clark agrees with the Governor. That combination simply has to lead everyone to conclude that something isn't right. The thing that isn't right with Senator Clark's explanation and the Governor's explanation is that this isn't new money. This \$225,000 was appropriated last year and was appropriated for OIC program and was found that the OIC was an ineligible recipient but the purpose was to train people in the Omaha area and provide them with industrial skills. The money is still there, the money was appropriated, the money should be used for the purpose that it was originally intended which was to train young people in the Omaha area to develop industrial skills to...and to provide that very needed education. It was needed last year when we appropriated the money and it is still needed. It couldn't be applied under the system that it was applied under and it should be applied. The need exists and the justification exists and the money exists and that is all that we are asking that it be re-appropriated and applied to the purpose for which it was originally appropriated for which is to train young people in the Omaha area and provide them with very needed and necessary industrial skills, both for the economic benefit of Omaha and for the person benefit for those students that are in need of that type of training. I strongly urge you to override this veto.

PRESIDENT: Senator Rumery.

SENATOR RUMERY: Mr. President, members of the legislature, would Senator Goodrich yield to a question?

SENATOR GOODRICH: Yes.

SENATOR RUMERY: Does this also include money to establish a cosmetology course?

SENATOR GOODRICH: Yes.

SENATOR RUMERY: Thank you.

PRESIDENT: Senator Richard Lewis.

SENATOR RICHARD LEWIS: Mr. President, members of the Legislature, I did oppose this being added to LB537 up to a point and there were so many more things added to this bill that I
